INSTITUTIONAL FOUNDER INTELLIGENCE

# Building *Ready* Companies.

Sahara turns founder chaos
**into institutional-grade signal.**

THE GLOBAL SIGNAL PROBLEM

# VCs don't lack capital. They lack reliable, upstream signal.

Investors review 1,000+ deals to fund 10. Pattern recognition currently happens *after* capital is deployed.

Sahara becomes the pre-funding intelligence layer that standardizes validation before mistakes compound.

THE SAHARA BRAIN: DIRECTED EXECUTION

01 / VALIDATION

## Reality Lens

Validates demand and positioning through persistent behavioral mapping before capital is at risk.

02 / SCORING

## Readiness Score

Benchmarks founders against real institutional criteria to identify validation gaps.

03 / BUILD

## Construction Engine

Builds institutional-grade deliverables and collateral required for high-velocity fundraising.

04 / EXECUTE

## Activation Layer

Deploys virtual execution agents for growth and fundraising, turning structure into motion.

TACTICAL SEQUENCING

**Daily & Weekly sequencing ensures founders execute, not wander.**

DRIFT DETECTION

**Detects stress and validation risks before they compound into failure.**

PATTERN RECOGNITION

**Cross-company learning makes the brain smarter with every interaction.**

PROOF OF CONCEPT

# Proven Revenue POC.

Sahara isn't a theory. We generated $27M using this structural model manually. AI now scales this institutional intelligence.

THE REVENUE ENGINE

# Monetizing Intelligence.

**SAHARA STARTER** — **Free**

Data ingestion for future fundability. Persistent memory capture.

**STRATEGY / RAISE** — **$99/mo**

For founders preparing to raise. Converts anxiety into structure.

**VENTURE STUDIO** — **$249/mo**

Virtual execution teams. Produces the signal investors respond to.

REACTIVE VS DIRECTED

### Generic AI Chat

Reactive and forgetful. Tools answer prompts but lack founder context and persistent memory.

NON-PERSISTENT

### Legacy Accelerators

Hyper-selective and equity-heavy. High friction, human-limited mentorship capacity.

LEGACY MODEL

### Sahara Intelligence

Directed execution based on persistent middle-layer intelligence. Cross-company pattern recognition.

INSTITUTIONAL STANDARD

THE LEADERSHIP TEAM

## Fred Cary

CHAIRMAN

**400+ startups launched | $2B+ raised | $1B+ ARR track record.**

*Architect of institutional structure.*

## Ira Hayes

CEO

**Multi-exit CEO | Scaled to $100M+ revenue | Expert in high-velocity monetization.**

*Leader in intelligence deployment.*

## Alex De La Torre

CPO

**Deloitte Alum | 3x venture acquisition lead.**

*Specialist in native brain architecture.*

## Bill Hood

COO

**45+ years tech leadership | Expert in infrastructure and enterprise systems.**

*Master of operational scaling.*

## Julian Bradley

CTO

**AI systems architect | Core digital twin engineer.**

*Pioneer in Sahara intelligence.*

THE OPPORTUNITY

# Why Invest Now?

Sahara is building the intelligence layer between founders and capital. We are the disrupter to a disruptive industry.

1. **100M+ Global Founders**
   Massive TAM with built-in distribution dynamics.
2. **Compounding Data Moat**
   Join before scale and category lock-in.
3. **Platform SaaS Dynamics**
   Infrastructure role in the venture ecosystem.

EARLY MATTERS

*"We are building the upstream filter for the entire venture industry."*

**$70M**

SUMMARY OF TERMS

# THE ASK

*Establishing the default pre-funding layer for venture companies.*

RAISING

**$2.0M**

*Soft Commit: $1.0M (Priced Seed)*

VALUATION

**$10.0M**

POST-MONEY | DELAWARE C CORP

WHAT $2M UNLOCKS

**Product V2**
Fully operational Sahara Brain + Production-grade memory engine.

**Growth**
150K registered users | 5K paying founders | Conversion validation.

**Revenue**
Target $5M ARR + 3-5 Investor group partnerships.
